

Linearity

Guide

Registration Guide and Strategy Link

By following this simple guide, you will be able to connect to the Linearity strategy and automatically copy all the trades performed by our system into your personal account.

By connecting your account, you won't need to keep any applications or programs active (24/7) because all operations will be replicated automatically, without the need for any additional tools. You'll need to use the relevant portal to manage your strategy and use an app on your smartphone (Android or iOS) to monitor its progress.

To do so, visit <https://fpmtrading.com/> using any browser, such as Google Chrome, Mozilla Firefox, or Microsoft Edge.

This guide is provided for educational and informational purposes only and does not constitute financial, legal, or investment advice. Use of the information and strategies presented is at your own risk. Past performance does not guarantee future results in financial trading. It is recommended that you consult a qualified financial professional before engaging in any trading activity. All investments involve risk, and it is essential to fully understand market dynamics before committing your capital. This guide is not a recommendation or guarantee of success in trading or any other financial activity. Traders are advised to exercise discretion and conduct due diligence before making trading decisions.

1.1 Broker Registration

To create an account, click on the "OPEN LIVE" or "START TRADING" button

OPEN LIVE

START TRADING

1.2 Broker Registration

A new page will open, where you will need to enter the information needed to create the account.

Follow these two steps:

1. Select "ACCOUNT TYPES" → "INDIVIDUAL"
2. Under "WERE YOU REFERRED BY A PARTNER?: YES OR NO", click "YES" and enter the following code: 470029
3. Continue by clicking on "SAVE AND NEXT".

N.B. Enter real data, as account verification will be required later.

The screenshot shows the 'Personal information' registration page for FPM Trading. On the left is a sidebar with a progress indicator at 20% and a menu with options: Accounts, Profile, Funding, Partners, Downloads, and Help. The main content area has a progress bar at the top with five steps: 1. Personal details (active), 2. Further Information, 3. Account Configuration, 4. Declaration, and 5. Start trading. The form fields include: EMAIL (text input), FIRST NAME and LAST NAME (text inputs with a note 'As per your Passport / Government ID'), GENDER (dropdown menu), ACCOUNT TYPES (radio buttons for 'Individual' and 'Corporate', with 'Individual' selected and circled in red), COUNTRY (dropdown menu), 'Are you a United States Citizen or a United States Resident for tax purposes?' (dropdown menu with 'No' selected), PREFERRED LANGUAGE (dropdown menu), PHONE (text input with a country code dropdown), and 'WERE YOU REFERRED BY A PARTNER?' (radio buttons for 'YES' and 'NO', with 'YES' selected and circled in red). Below this is a text input field containing the code '470029', which is also circled in red. At the bottom, there is a checkbox for 'Non sono un robot' and a reCAPTCHA widget. A blue 'SAVE AND NEXT' button is located at the bottom right.

1.3 Broker Registration

On the next page, continue entering the additional requested data.

Once you have filled in the required fields, proceed with the next steps.

Terms and Conditions

Before opening a new Trading Account with FPM Trading, please review the following documents on the FPM Trading website: <https://www.fpmtrading.com/legal-documents/>

1. Terms and Conditions

2. Privacy Policy

3. Client Agreement

4. Best Interest and Order Execution Policy

5. Conflicts of Interest Policy

☐

By ticking this box, I/We agree that I/We have read, understood and agree to, and are legally bound by the FPM Trading documents listed above.

Accept and Open Account

2. Verify account

If everything went well, you will be redirected to the FPM Trading portal and the account verification process will begin.

At this stage, you will be asked to verify your identity.
If you're using a computer, click "Continue on this device." Alternatively, if you're completing the verification process via smartphone, click "Continue on phone."

If your computer or notebook has a camera, you can continue the verification directly on the device; otherwise, it's advisable to use your smartphone, as you'll need to take a photo of the document.

If you accidentally close the page or, for some reason, the process is interrupted, you can return to this stage by clicking on the "Upload Documents" item in the menu.

Instead, you may be redirected to a page where you will be asked to set a “PIN” for account security.

Set it up and then proceed with document verification.

2.1 Account Verification

During this procedure, two types of documents will be verified.

Identity document (to prove your real identity)

- 1.Document to prove the validity of the address provided during registration.
- 2.For this step, documents clearly showing your name, surname, and residential address are accepted. For example, you can use a telephone, electricity, gas, or similar bill. If you don't have these documents, you can upload your "residence or domicile" status, which can be obtained from the ANPR website by logging in with SPID.

Once the procedure is completed, log back into the Dashboard (of the FPM portal) and check the “Pending Document Review” item at the top.

If you have set the language to Italian (recommended), the entry will appear as “Awaiting document review”.

At this point, all that remains is to wait for the system to verify the documents.

Pending Document Review

In attesa di revisione del documento

While you wait for your documents to be verified, you can begin to familiarize yourself with the portal and check your account information.

By accessing the Dashboard, note down the main information:

They will be useful for making a deposit, connecting to the strategy and using the MetaTrader 5 application.

In particular, keep in mind that the account number is made up of 8 digits.

Visualizza tutti i conti

3. Deposit

After receiving confirmation of document recognition, you can proceed with the payment of the deposit required to connect to the strategy.

The minimum deposit required is €500, although we recommend depositing €1,000 to maintain the same risk ratio as the master.

To make a deposit, access the menu on the left, select "Funding" and then "Deposit"

Next, click on “EUR”

You will then be taken to this page, where you can choose your preferred deposit method.

4. Adhesion Strategy

To get started with the strategy, follow these steps:

Go to this link and fill in the required fields:

- **Server Selection:** Select FPMT Live MT5

Account Number: Enter your account number (found in the Dashboard)

Password: Enter the password you chose during registration.

Accept the terms and conditions.

Click on the “ACCEPT/REGISTER” button to complete the procedure.

5. Strategy Activation

At this point the strategy panel page will be displayed, but it is not yet correctly activated.

To activate it, click the “actions” button, select “Ignore” under “Provider’s current position” and then click Activate.

Connection to strategy made.

To confirm that everything went well, check this checkbox which will turn green, indicating that the strategy is active.

6. Strategy settings and risk management

To set the opening of trades with a degree of risk proportional to the Master account, access the “Subscription Strategy” section. Then click on Edit, visible on the right.

Ridimensionamento del volume *

Moltiplica

Scalabilità automatica - Il rapporto tra il volume di una copia e il volume originale è uguale al rapporto tra i valori confrontati del follower e del provider. Il risultato viene quindi moltiplicato per il rapporto di rischio.
Moltiplica - Il volume di una copia è uguale al volume originale moltiplicato per il rapporto di rischio
Fisso - I volumi delle copie sono sempre uguali al rapporto di rischio.

Moltiplicatore di volume *

1

Numero per il quale moltiplicare il volume del provider per una copia

Gestione dei piccoli volumi *

Salta i bassi volumi

Il sistema arrotonda i volumi per eccesso, se vicini al minimo. Tuttavia, i volumi molto bassi vengono saltati. Scegli di copiare queste posizioni selezionando l'opzione Rischio per arrotondamento al lotto minimo. Questa opzione comporta il rischio di un aumento del margine di utilizzo

6.1 Strategy settings and risk management

If your deposited capital is greater than €1,000, it is strongly recommended to set the copy to Automatic Scaling. This way you will maintain a risk/reward ratio equivalent to that of the Master.

In the window you will have to proceed as follows:

- In the Volume Resizing pane, select 'Autoscale'.
- In the Comparison Value box, select 'Balance'.
- In the Volume Multiplier box, enter the number '1'.
- In the Small Volume Management pane, select 'Skip small volumes'.

Finally, confirm to save the settings.

7. Monitor operations via app

Installing and logging into MetaTrader 5

Download the MetaTrader 5 app:

From Google Play if you are using an Android device.

From the Apple Store if you are using an iOS device.

Desktop version: Downloads for Windows and Mac are also available on the FP-Markets website.

Account access (from smartphone):

- Open the MetaTrader 5 app
 - Accept the app's terms of use
 - Close the “Open a demo account” window
 - At the top, in the “Broker Search” line, write “fpm trading”
 - Select the server “FPM Trading Ltd.”

- Enter the required data:
 - Login: your account number
 - Password: the password entered during creation
 - Server: FPMTrading-Live
 - Click on login
